

# WELCOME TO THE WORLD'S BEST WOOD

100% VERIFIED LEGAL LUMBER

**NATURE  
PROVIDES,  
WE REFINED**

**WE'RE BLACK LABEL**  
**FOR A REASON**

# WE'RE BLACK LABEL

When it comes to lumber, there's nothing like tropical hardwood. And when it comes to tropical hardwood, there's nothing quite like the Black Label – a handpicked selection of some of the finest lumber nature has to offer.

To earn the name, each board must meet **our highest quality standards**. That means when you buy Black Label, you're always opting for premium architectural grade lumber. In other words, you're opting for the world's best decking.

# THE REASON

**Lifespan of up  
to 75 years**

**Barefoot  
friendly**

**100% verified  
legal lumber**

**Easy low  
maintenance**

**Wide range of sizes,  
up to 20ft long boards**

**Natural design that  
no composite can copy**

## Dream big, we've got you covered

Black Label boards are available in all standard widths and lengths. Custom sizes can be made upon request. So go ahead and plan the project of your dreams – we'll make it happen.

**Black Label's species come in a broad range of colors. It's the uniqueness of each board that makes them so special.**

ANGELIM

IPE

GARAPA

CUMARU

TIGERWOOD

JATOBA

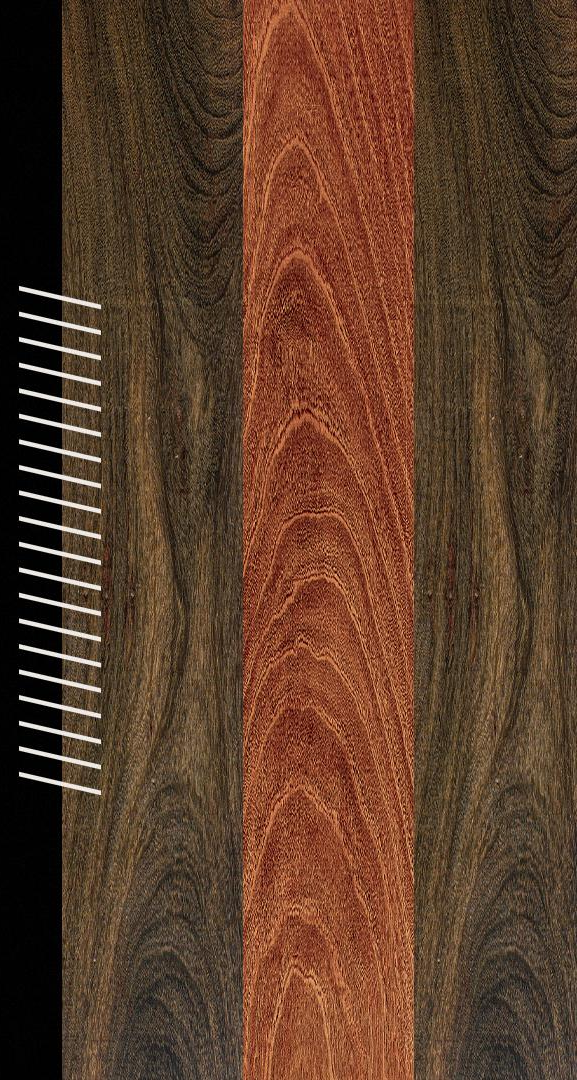

**BUY SUSTAINABLE WOOD.**  
**SAVE THE FOREST**

When you buy certified wood, you are doing your part to protect our planet. That's because the trees used to produce legal lumber are carefully selected, taking into account age, size, and productive wellbeing of the forest, which allows young and healthy ones to grow.

Sustainable forestry practices also help prevent the predatory harvesting of certain species by requiring rotation. We at **Black Label** are never satisfied with "good enough" which is why we hold ourselves to the standards of multiple regulatory organizations.

Every board of Black Label is 100% certified by international entities, according to the strictest environmental, social, and economic standards of organizations like Unifloresta and FSC®, to name a few.

# OUR SIGNATURE SPECIES

# OUR SIGNATURE IPE SPE

/ The king of hardwoods

Slowly grown in South America, and carefully harvested by our team, Ipe is an incredible choice for outdoors for several reasons. One is its extreme resistance to insects and the elements, which gives it an impressive lifespan of up to 75 years. An amazing piece of lumber, set to last you a lifetime.

---

OUR

SIGNATURE

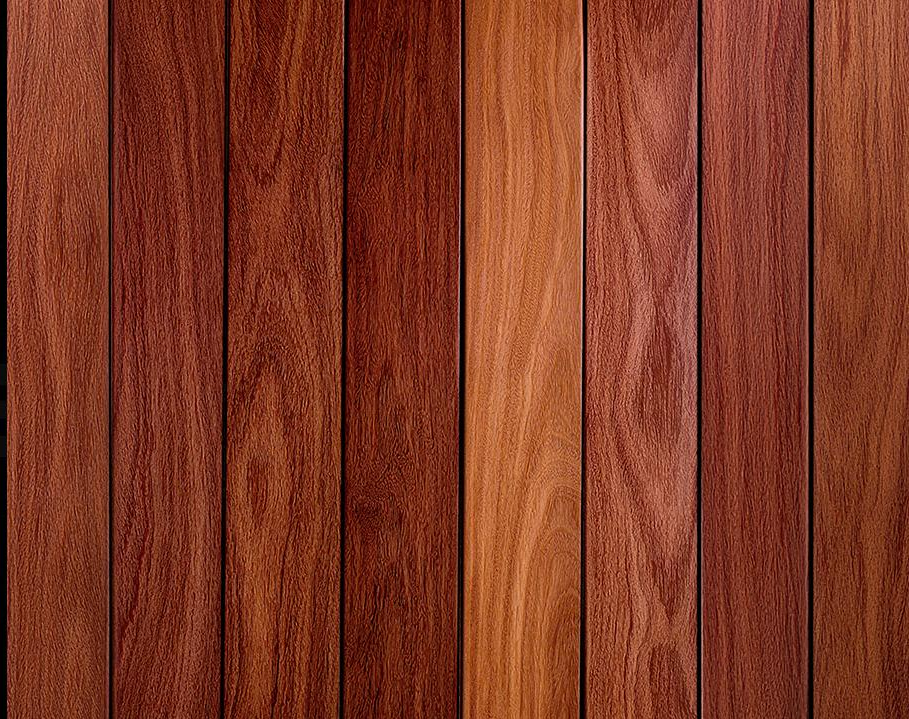

# CUMARU

/ Elite grain for elite taste

You simply know when you're standing on a board of Cumaru. An exceptional hardwood, with endless qualities, it is considered one of the best species of lumber for exterior home renovation projects. Its strength also makes it a preferred wood for flooring, cabinetry, furniture, and more.

---

OUR

OUR

SIGNATURE

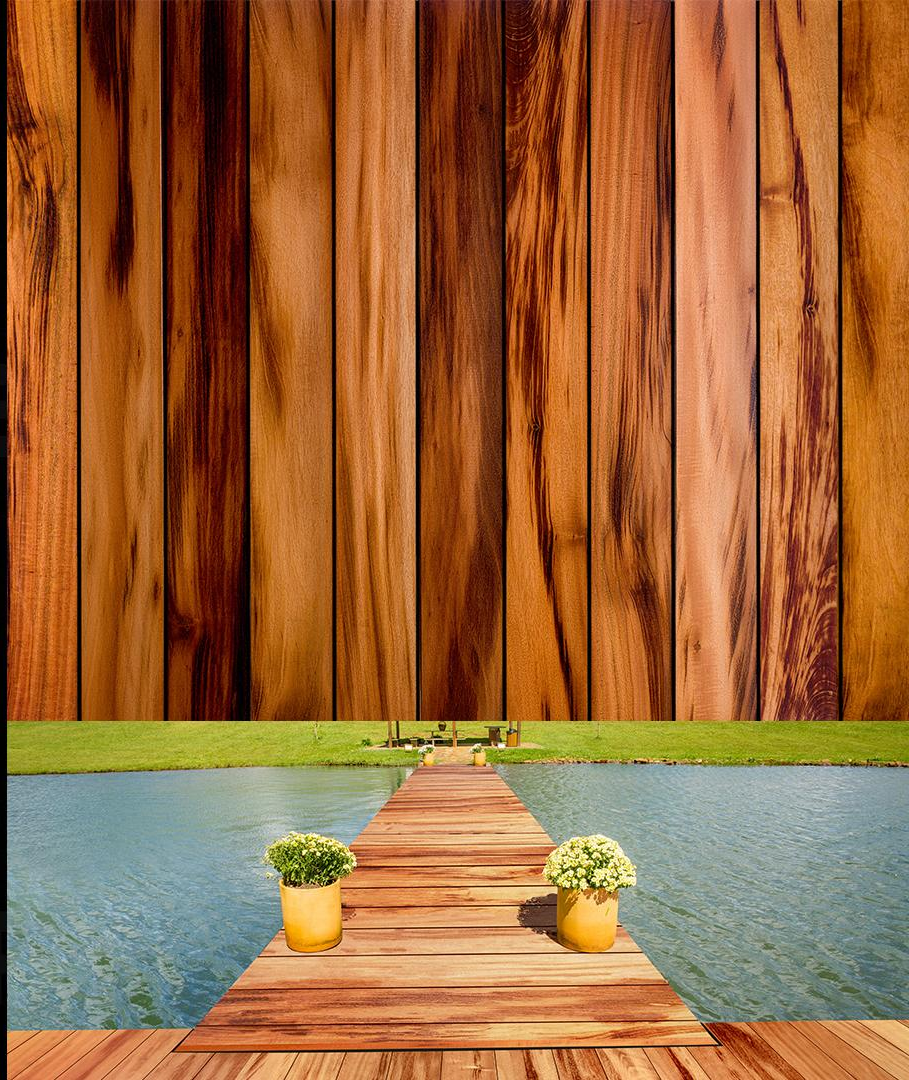

# TIGERWOOD

/ The finest stripes

As one of the densest exotic hardwoods on the market, Tigerwood combines a signature feel with a unique look. Aptly named for its golden-brown hues that contrast with dark brown streaks, Tigerwood allows you to bring the beauty of the rainforest home with you.

---

OUR

# JATOBA

/ Exotic look meets superior performance

The color of the Jatoba is truly one-of-a-kind. While its sapwood provides a pinkish-white hue, its heartwood ranges from pinkish-brown to reddish-brown. Known for being lustrous and having a fine grain from time to time, its mix of shades makes it a very natural and elegant choice.

# GARAPA

/ Nature's golden treasure

Garapa is a beautiful and majestic wood from the semi-jungle and secondary forest areas of South America. Its characteristic tone ranges from pale yellow to golden beige. With its unique, soft shine, this golden treasure brings elegance to any space.

# OUR SIGNATURE ANGELIM PEDRA

/ The bedrock of exotic hardwoods

Angelim Pedra lives up to its name, as it is one of the heaviest, densest tropical woods on the market. Additionally, it is highly resistant to termites and decomposition, making it an excellent choice for the outdoors and for those who seek durability and permanence over time.
