

WELCOME TO
**THE WORLD'S
BEST WOOD**

BLACK LABEL™
THE WORLD'S BEST WOOD

BUY
SUSTAINABLE
WOOD,

SAVE THE FOREST

When you buy certified wood, you are doing your part to protect our planet. That's because the trees used to produce legal lumber are carefully selected in consideration of the age, size, and productive wellbeing of the forest, which allows young and healthy trees to grow.

Sustainable forestry practices also help prevent the predatory harvesting of certain species by requiring rotation. At **Black Label™**, we are never satisfied with "good enough," which is why we hold ourselves to the standards of multiple regulatory organizations.

Every piece of **Black Label™** is verified 100% legal, in accordance with the strictest regulatory and environmental standards, via our comprehensive Legal Lumber™ Due Care Compliance Program. This program requires a third-party chain of custody auditing by organizations like the FSC® and Unifloresta.

LEGAL LUMBER™

The mark of responsible forestry

WE ARE BLACK LABEL™ FOR A REASON

When it comes to lumber, there's nothing like tropical hardwood. And when it comes to tropical hardwood, there's nothing quite like **Black Label™** — a handpicked selection of some of the finest lumber nature has to offer.

To earn the name, each board must meet **our highest quality standards**. That means when you buy **Black Label™**, you're always opting for premium architectural-grade lumber. In other words, you're opting for the world's best decking and cladding products.

Dream big. We've got you covered.

Black Label™ boards are available in all standard widths and lengths and in a broad range of colors. It's the uniqueness of each board that makes them so special.

Custom sizes can be made upon request. So go ahead and plan the project of your dreams. We'll make it happen.

VERSATILITY IS IN OUR DNA

We have the right product for every project.

DECKING

Black Label™ provides an exceptional return on your investment with majestic decks made of naturally durable hardwoods that can last more than 70 years.

DECK TILES

Conventional, rooftop, or ground level, the **Black Label™** Deck Tile & Pedestal System is a low-cost solution for any deck. Ideal for areas lacking adequate ventilation, our easy-to-install deck tiles provide a breath of fresh air and a unique look for any space.

ARCHITECTURAL MILLWORK

We offer a full range of milling and pre-finish services, including planning, custom molding, and CNC for any architectural applications. If you can dream it, we can craft it.

CLADDING & SOFFIT

Black Label™ brings rain screen, cladding, and soffit systems that provide a breathtaking experience for any type of space that will last centuries.

HEAVY TIMBERS

Black Label™ products keep first-class timbers, and heavy section decking stocked for marine, industrial, and commercial applications like boardwalks, piers, bridges, fenders, sheet piling, RR ties, crane mats, guardrails, arbors, sunscreens, and any other applications that require large sections and long lengths.

CRAFTING EXCELLENCE

The **Black Label™** kiln drying process uses an optimal temperature control system that carefully brings out the best characteristics of any wood without causing unwanted drying defects.

WE KILN DRY BEFORE THE MILLING PROCESS

EXTERNAL LUMBER
kiln processed to 12-14%
moisture content

INTERNAL LUMBER
kiln processed to 6-8%
moisture content

FINEST SELECTION

Only the best varieties of hardwood around the planet become part of this elite collection.

ALWAYS SUSTAINABLE

Protecting our environment and promoting sustainability are our top priorities.

EVERLASTING PERFORMANCE

Black Label™ blends beauty and natural durability, providing you a return on your investment.

TM

OUR SIGNATURE SPECIES

IPE

/ The king of hardwoods

Slowly grown in South America, and carefully harvested, Ipe is an incredible choice for the outdoors for several reasons. One of the best reasons is its extreme resistance to insects and the elements, which gives it an impressive lifespan of up to 75 years.

ANGELIM PEDRA

/ The bedrock of exotic hardwoods

Angelim Pedra lives up to its name, as it is one of the heaviest, densest tropical woods on the market. Additionally, it is highly resistant to termites and decomposition, making it an excellent choice for the outdoors.

CUMARU

/ Elite grain for elite taste

You simply know when you're standing on a board of Cumaru. An exceptional hardwood with endless qualities, it is considered one of the best species of lumber for exterior home renovation projects. Its strength also makes it a preferred wood for flooring, cabinetry, furniture, and more.

GARAPA

/ Nature's golden treasure

Garapa is a majestic wood with a characteristic tone that ranges from pale yellow to golden beige. This golden treasure brings elegance to any space.

JATOBA

/ Exotic looks meet superior performance

The color of Jatoba is truly one of a kind. While its sapwood provides a pinkish-white hue, its heartwood ranges from pinkish-brown to reddish-brown. Known for being lustrous and having a fine grain from time to time, its mix of shades makes it a very natural and elegant choice.

TIGERWOOD

/ The finest stripes

As one of the densest exotic hardwoods on the market, Tigerwood combines a signature feel with a unique look. Aptly named for its golden-brown hues that contrast with dark brown streaks, Tigerwood allows you to bring the beauty of the rainforest home with you.
