LONG BEACH BOARDWALK – LONG BEACH, NY

PROJECT PROFILE

Dear Brian:

I want to take this opportunity to tell you what a pleasure it was working with Tropical Forest Products on the Long Beach Boardwalk project. Your reputation in the industry was a key factor in our decision to contract with your company and you lived up to it. You and your team at Tropical Forest Products were organized and professional at every level. The communication could not have been better, which made working with you guys a pleasure, and the materials were delivered on time. We especially want to thank you for helping us to meet our construction milestones which were quite aggressive as you well know. We sincerely hope that we have the opportunity to work with your company on additional projects in the future.

Please don't hesitate to use myself as a reference for potential clients as I would gladly relay this information personally.

Thanks again for your help,

Willie MacDonald
Project Engineer
Grace Industries LLC

TECHNICAL/ENVIRONMENTAL LEAD: Brian Lotz
