## Tropical Forest Products Itauba Deck Tiles

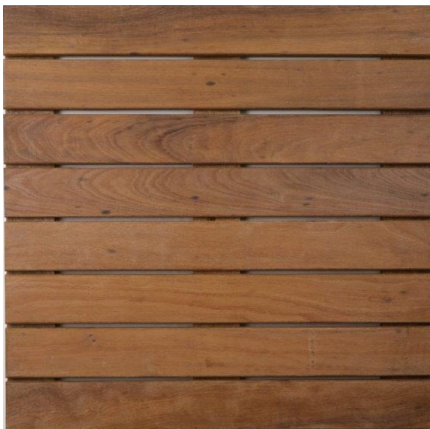

Tropical Forest Products offers Tropical Forest Products Itauba Deck Tiles in 24"x24" for those customers looking for a value engineered tile option.

Itauba has a walnut color very similar to Ipe with occasional spots called stones. Itauba will weather naturally to a grey patina over time if left un-finished.

The Itauba tree is a smaller tree which makes it ideal for deck tile production and has Class 1 Durability and Class A Fire Rating. Tiles are designed to span 24" at 100psf live load.

Tropical Forest Products Deck Tiles are offered with a smooth deck board surface only and are naturally slip resistant.

Tropical Forest Products Deck Tiles are designed to be installed over roofs, asphalt or concrete, old decks on or in new deck constructions. Installation labor costs are lowered significantly when using modular deck panels.

Use with...

- 3/16" Elevate Quick Connect EPDM Rubber Pedestal
- Elevate™ Star Pedestals adjustable to 3/8" to 1-3/8"
