TFP PRODECK STAR PEDESTAL SYSTEM

Tropical Forest Products Star Pedestal System

Pedestal Options

Tropical Forest Products offers several pedestal options based on surface and elevation requirements.

Tropical Forest Products pedestals can be utilized for projects that require roof to deck surface tile elevation heights from 1-3/4" up to 36" Tropical Forest Products pedestals include features that add greatly to performance, ease of installation, and stability including pressure fit connection technology, post installation elevation adjustment and self-leveling technologies.

TFP ProDeck Star Pedestals

Star T

Star T with Star B Stackable Base and Joist Head Option

TFP ProDeck Star Pedestals provide a unique solution when your project requires pedestals under 1-1/4" with some adjustability to allow for some irregularity in the base surface.

The Star Pedestal System incorporates pressure fit connection technology.

The Star T Pedestals unique design and key slot provides post installation elevation micro adjustment from 3/8" to 9/16" generating a minimum elevation base surface to top of deck tile of 1-5/8". Combined with the 3/16" stackable Star B Base pedestals, any required pedestal height can be met from 3/8" to 1-1/4" where our Self Leveling SE Screw Jack or NM pedestal system take over.

Star T Pedestals are also available with a Wood Joist Head option for conventional deck construction generating a minimum elevation base surface to top of conventional deck of 2-1/2" when combined with 2x4 wood joist pressure treated or 5/4x4 lpe wood stringers layed flat on 24 inch on center pedestal spacing.
