

## Tropical Forest Products Star Pedestal System

### Pedestal Options

**Tropical Forest Products offers several pedestal options based on surface and elevation requirements.**

Tropical Forest Products pedestals can be utilized for projects that require roof to deck surface tile elevation heights from 1-3/4" up to 36" Tropical Forest Products pedestals include features that add greatly to performance, ease of installation, and stability including pressure fit connection technology, post installation elevation adjustment and self-leveling technologies.

### TFP ProDeck Star Pedestals

Star T

Star T with Star B Stackable Base and Joist Head Option

TFP ProDeck Star Pedestals provide a unique solution when your project requires pedestals under 1-1/4" with some adjustability to allow for some irregularity in the base surface.

The Star Pedestal System incorporates pressure fit connection technology.

The Star T Pedestals unique design and key slot provides post installation elevation micro adjustment from 3/8" to 9/16" generating a minimum elevation base surface to top of deck tile of 1-5/8". Combined with the 3/16" stackable Star B Base pedestals, any required pedestal height can be met from 3/8" to 1-1/4" where our Self Leveling SE Screw Jack or NM pedestal system take over.

Star T Pedestals are also available with a Wood Joist Head option for conventional deck construction generating a minimum elevation base surface to top of conventional deck of 2-1/2" when combined with 2x4 wood joist pressure treated or 5/4x4 lpe wood stringers layed flat on 24 inch on center pedestal spacing.
