

GrandReserve
LIMITED EXOTIC LUMBER

Granadillo

Granadillo will enchant your creativity with its bold purplish, deep reds, browns, blacks, and occasional violets penetrating through this exotic hardwood. Granadillo wood is indigenous to the Yucatan peninsula of southern Mexico, Belize and northern Guatemala, and is known for more saturated color tones and frequent figuring in the logs.

In Stock:
52 mm live edge slabs

Scientific Name:
Playmiscium Yucatan

Applications:
Furniture, cabinetry, veneer, musical instruments, turned objects, and small specialty wood items
