Enduring Elegance. Crafted by Nature

Rich, warm, and timeless—Sapele is one of the most refined hardwoods of Tropical Black. Sourced responsibly from well-managed forests, each board embodies our commitment to sustainability, uncompromising quality, and the preservation of nature's most extraordinary materials.

A Hardwood Chosen for **Precision & Beauty**

Sapele is admired for its deep reddish-brown tones, interlocked grain, and subtle ribbon figure that elevates any architectural vision. Beyond its visual richness, it offers remarkable dimensional stability and long-lasting performance, making it a favored species among artisans, builders, and designers seeking luxury with purpose.
